

Greenfix TRG Tree Root Guiding Panel

Description

Greenfix TRG Tree Root Guide was designed to prevent root growth from lifting and damaging paving. Its panels feature special guide ribs which redirect tree roots deeper into the soil. The Root Guide can be used within two meters of the tree. Conventional root barriers do not guide roots and therefore offer no stability and limit the growing space. To prevent roots lifting the panels, horizontal ground anchors fix the panels in place. Our panels meet all requirements of root guidance. In addition, the TRG panels are also equipped with double top edge. The rim prevents root growth over the panels and prevents cracking entry of the screens.

Material

TRG30, TRG45, TRG60, TRG90, TRG105 and TRG120:

- Recycled PP (100% recycled material)
- Injection moulded copolymer polypropylene
- Manufactured in ISO 9002 certified factories
- 90° ribs guide tree roots downwards
- Reinforced double top rib, resistant to repeated foot traffic and against spring roots to prevent overgrowth
- UV-stabiliser additive to prevent adverse effects of sunlight
- Ground anchors to prevent the panel from being pushed up out of the soil •
- Produced in Europe

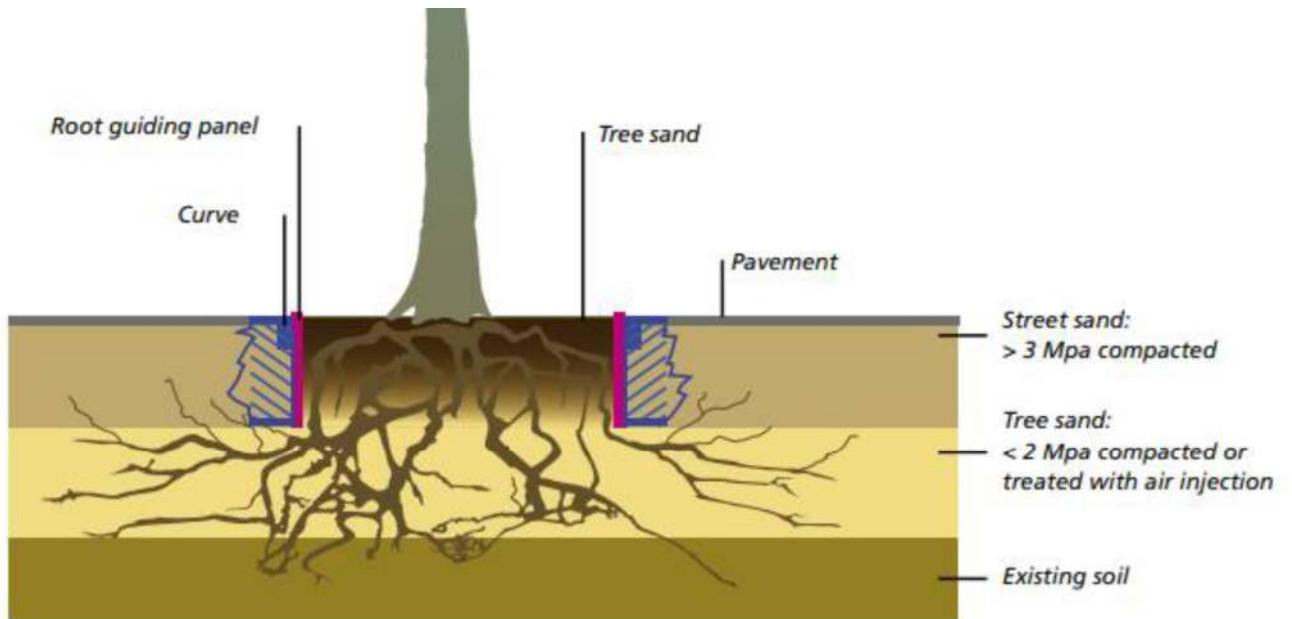

TRG30, TRG45 and TRG60:

- Panels are 60 cm wide

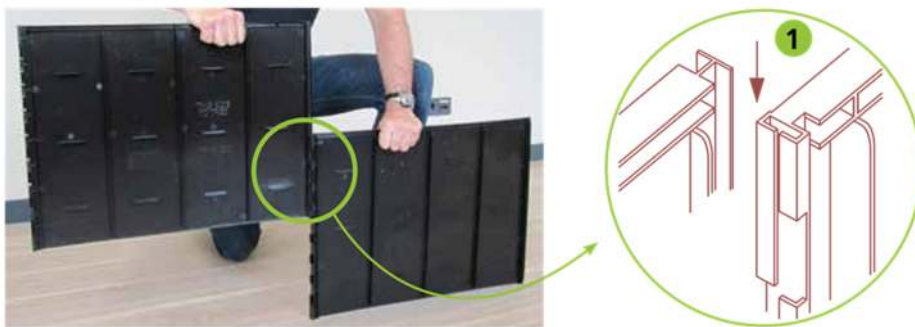

TRG90, TRG105, and TRG120:

- These panels can be interlinked in order to bridge any cables or piping encountered
- Panels are 75 cm wide

| Type | Panel Height | Width | Thickness | Per Box |
|--------|--------------|-------|-----------|---------|
| TRG30 | 30cm | 60cm | 2mm | 40pcs |
| TRG45 | 45cm | 60cm | 2mm | 26pcs |
| TRG60 | 60cm | 60cm | 2mm | 20pcs |
| TRG90 | 90cm | 75cm | 2mm | 20pcs |
| TRG105 | 105cm | 75cm | 2mm | 20pcs |
| TRG120 | 120cm | 75cm | 2mm | 20pcs |

Also applicable in tree granulate

Interlock for easy installation
